AMA Charter #128

The Western Soaring Capital

Presidents Message

I haven't seen many of you for the last couple of months. I am hoping you will make some time and come out and visit with your buddies. Your first chance will be Tues. June 5th at our club meeting. Dave Sanders will be giving a talk on composite construction techniques. Dave is a great speaker and it should prove to be a very entertaining, educational meeting. I would like to remind all officers that there will be an officers meeting at 7:00 PM sharp preceding the meeting. We will have a club contest June 10, details will be available at the meeting. I am hoping that you will make the meeting, and the contest. Larry

Field Grumbings

I know that this has been a tough year for the Gang at Harbor. I have noted some frustration with the problems we have encountered with the field. I am not insensitive to the fact that H.S.S. seems stuck in neutral and not going anywhere. It seems that we have gotten through the FAA episode and are clear to continue our activities at Fairview Park. I am calling on all interested club members to attend our officers

meeting at 7:00 before the club meeting. We still have half a year left, and I feel that we can turn 2001 around and finish out the year strong. It is also not too soon to start thinking about the club leadership for next year. We are going to need officers for all positions (including newsletter) next year. This is an opportunity for those interested to make your feelings known and get involved. Remember, while it is far easier to sit on the outside and gripe, it is far better for the club for you to get involved. Larry

Next Meeting

Dave Sanders has agreed to come to our next meeting on June 5th, 7:30pm at the Irvine Water District Office. He will put on a demonstration about making composite models at home. This should be a very interesting meeting. Dave is a very knowledgeable person, interesting to listen to. This is a don't miss meeting. Jim Hanson

Next Contest

The June club contest will be on June 10th. at our usual field, Fairview Park. Contest starts at 9 am (later if it's foggy).
