### The TRUST Test and FAA Registration

TRUST is The Recreational UAS Safety Test. It provides education and testing for recreational flyers on important safety and regulatory information. If you fly your drone recreationally under the [Exception for Recreational Flyers](#) you must pass the test before you fly. To take the test, go to <http://trust.modelaircraft.org> . This is the AMA Site. Take the test (Don't worry, it is fail-proof) then obtain your "Completion Certificate".

All recreational flyers must pass this aeronautical knowledge and safety test and provide proof of test passage (the TRUST completion certificate) to the FAA or law enforcement upon request.

Go to <http://faadronezone.faa.gov> and create an account for your FAA Registration. Apply for "I fly under The Exception For Recreational Flyers". They will issue you an FAA registration number that must be affixed to the outside of all of your radio control model aircraft. The charge is \$3 for three years, for all of your R/C aircraft.

## Western Museum of Flight

A brief discussion of aircraft museums began at the meeting, and continued in the following E-mails. First a note from Mike Costello to John Rittenhouse.

At that museum is a homebuilt my dad worked on a thousand years ago: Sierra Sue (Referenced in the following list. Ed.). Typical opposed engine mounted mid-ship with a long driveshaft to the prop on the tail. Vertical stab under the fuselage. Not sure what dad contributed; maybe some calculations on the driveshaft?

<https://www.wmof.com/Serria%20Sue.html>

John R replied with the following.

Here is the link to the Edwards Air show that I was talking about last night:

<https://www.youtube.com/watch?v=HeYviUVZClo> My hangar mate flew my plane (blue and yellow) at the show, you can see it at the 2:56 point of the video.

Also I mentioned seeing the YF-23 sitting out, all by itself on the tarmac at Torrance airport. I can't find my pictures, but you can check this link if you want to see more info about it and the "Western Museum of Flight": <https://www.wmof.com/display.htm>

### Invitation To Members For Contributions To The Plane Rap Newsletter

Your editor would love to hear from club members. If there is anything you would like to share with the rest of us I would like you to send it to me. I will add it to the next newsletter. My favorite things to publish are items sent in by members!! These can be anything like reviews of your plane or equipment, links to good videos, links to articles, and things you have built or created. Bad spelling and/or grammar gladly accepted. Anything from a picture with a caption to a full blown build/review article is good. Letters-to-the-Editor are always welcome as well. Tell us what you think. Please help make the newsletter and website more interesting with your submissions. Embarrassing pictures/videos are the best. I look forward to hearing from you.

Fred Hesse - Plane Rap Editor - [fhesse@socal.rr.com](mailto:fhesse@socal.rr.com).

### Photos of Your Planes

We are very fortunate to have Rob Askegaard as our club photographer. Rob has a high degree of talent, and supplements that with an excellent camera. His well composed and very realistic photos taken at ground level and his remarkable stop action in-flight pictures are superb. Rob's contributions are what make our newsletter really spectacular. We try to feature everyone and their planes, so if you haven't seen yourself in our newsletter, look for Rob just about any morning and pose for him. Anyone who wishes a high quality print or jpg file of their favorite plane should contact Rob, or your editor. Phone and E-mail information is shown on the last page of this newsletter.

**SCAM Warning**

Your editor maintains a newsletter sharing network with other Southern California model clubs. Here is an alert recently received from Silent Electric Flyers of San Diego concerning E-mail scams. We have had some similar activity within HSS.

Recently a lot of SEFSD club members have been seeing scam emails in their inboxes. We have all seen this kind of activity before but this is different because they are supposedly coming from a familiar club member. Typically they are use this familiarity to conn us into sending them money in one form or another: gift cards, cash, etc. No one from this club will ask you for money. As a rule of thumb, if someone wants your money, it is a scam.

You can verify if the sender is legitimate by checking their email address. It will stand out as not belonging to the name of the person who supposedly sent it.

This is for informational purposes only. How you respond is up to you but I recommend you not respond and delete these emails.

**SCAM Warning (Continued)**

The examples below are just two of the emails:

**Ex. 1**

*Good to hear from you. I need to get a \$200 Amazon E-Gift Card for a friend of mine who is diagnosed with stage 4 mesothelioma cancer, She lost her only daughter to the disease (COVID-19). it's her birthday but I can't do this now. I tried purchasing it online but unfortunately I got no luck on that. Wondering if you could help me take care of this through Amazon online? and I'll reimburse you once I get back home.*

*Please let me know so I can provide you with her email.*

*Thank you so much

**Ex. 2**

*To: 'Club Member'  
Subject: Quick question!!!*

*Sorry to bother you, do you order from Amazon?*

*Thanks
