President's Message

I want to encourage all of you to come out and get some flying in, our field is always at it's best this time of year. Speaking of being at your best, I want to congratulate the club and all the members that helped out with the F3J two day last month. The contest was a huge success and WE looked good. Many of the contestants asked about next years contest and indicated they would love to come back and enjoy some HSS hospitality. The SULA (SC)² was March 26, I saw quite a few HSS guys flying, I think there were 66 entries, Joe Rodriguez will give us a report at the meeting. I will be giving a demonstration and talk about model Turbines at the meeting. Bring your latest model and come down and spend the evening with us. Hope to see you there.
Larry

Last Meeting Minutes

Larry Jolly called the meeting to order at 7:02 pm. Posting the newsletter on the internet @1hss.org was discussed. Comments were: we shouldn't post it on the web site, because no one will need to join the club and pay to get it if we do. With the newsletter on the web as a source of info about us would enhance our clubs image, thus encouraging new members. Larry tabled the discussion till next month.

Larry will set up a policy for who gets keys to the shed, and a list will be published so every knows who to contact to get into the shed.

Reclassification of flight classes for contest; currently five classes. Dropping masters class is be-

ing proposed, Ross & Joey will take a pole at the field, and a proposal will be presented to the Board next month.

7:40 Board meeting adjourned; General meeting started. Rodger Saville talked about having an Air show day- with foamies to test fly and various demonstrations of contest flying, electrics etc. It was suggested to do it in Sept when the train guys have their open house. Rodger is forming a committee to plan it out- See Rodger Saville with your input and interest

Jim Hanson showed his new electric Pico Jet. Looked cool.

8:15pm Dick Baxter demonstrated his many indoor rubber band powered planes- Dick had several 15min flights- Karl Hawley wanted to test one on the winch at the field. Ross wanted to precision land one on a pinhead. Dick gets school kids involved in making and flying these as school projects. This was a real neat presentation. The meeting was adjourned late, (9:45pm).

Next Meeting - April 4th Tues.
HSS Club Meeting, 7:30 Irvine Water. District.
Larry Jolly will talk about model Turbines.

Contest Coordinator Report

By: Joe Rodriguez

A meeting held before the contest to discuss a couple issues: Only seven contests will count for year end and **MASTERS** class was removed, this was discussed and voted on by the contest membership. Anyone wanting to change classes from **EXPERT** to **ADVANCE**, next month at the April contest will be your last chance to move classes.

The contest formats this year are a change of pace, I think we are going in the right direction. We are enjoying more flying time minimum 30 minutes and with open order you could fly all 4 rounds one right after another. There seems not to be much time to stand around you are either flying or are timing. If you are interested to CD a contest please just say so and I will put you on the list. The scoring computer is now ready to use and is located in the equipment shed. See you at the field. Joe
